Declaration of Conformity ADI free

Dear Madam or Sir

Federtechnik Kaltbrunn AG hereby declares that the supplied products are generally free of animal derived ingredients ("ADI free"). The used materials and components do not contain such substances and neither do the further treatments and the operating supplies used by Federtechnik Kaltbrunn AG.

However, it cannot be guaranteed that no residue of the operating supplies of our suppliers and contamination from logistics processes, i. e. hand lotion used by an employee, containing small amounts of animal derived ingredients, remain on the product. To achieve this level of cleanliness, a special cleaning process and airtight packaging would be required, which we offer on demand. Animal derived products, which are used by request of our customers, are excluded from this declaration.

Freundliche Grüsse

Federtechnik Kaltbrunn AG
