REACH and RoHS declaration

Dear Sir or Madam,

We hereby declare that all the products we supply to you comply with the current versions of the RoHS Directive 2011/65/EU of 8 June 2011 on the Restriction of the Use of Certain Hazardous Substances in Electronic and Electrical Equipment and the REACH Regulation (EC) No. 1907/2006 of 18 December 2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

This also includes the addition of the delegated directive 2015/863 with the four new substances phthalates DEHP, BBP, DBP and DIBP (RoHS3).

All of our products satisfy the requirements of the aforementioned regulations and are free from substances in concentrations or for applications that are forbidden by the regulations. We only supply products that do not release such substances under normal, designated use conditions. We therefore have no obligation to register any substances or provide safety data sheets.

The products and their packaging do not contain substances from the candidate list (<http://echa.europa.eu/web/guest/candidate-list-table>) in accordance with Article 59 (1, 10) of the REACH Regulation greater than 0.1 per cent by mass.

In particular, we wish to state that no substances requiring authorization (Annex 14 to REACH) and no restricted substances (Annex 17 to REACH) are used.

This declaration is true to the best of our knowledge and belief and is based on information from our suppliers.

Yours faithfully,

Federtechnik Kaltbrunn AG
